

ONEA Update: March 19, 2020

The much-anticipated report from the Continuous Learning KSDE Taskforce has been released. Here are the key takeaways from the recommendations.

-Each district has 5 days to develop a plan with educator input and voice in the development of such a plan. Olathe NEA has been and will continue to work to ensure educator voice in the curriculum. You will learn more in the coming days, so please hang tight.

-Districts are encouraged to survey the needs of the community so that any plan can meet the individual needs of the students.

You can read a summary of the report by going to http://bit.ly/KNEACL_2

Here are some actions that Olathe NEA has worked to assist educators during this time:

- Work with Olathe Public Schools Administration to extend the grading period for students and seek clarifications to questions about grading.
- Advocate for educator voice in communicating with Olathe Public Schools Administration on how we move forward during these unprecedented times.

We are all in this together, and Olathe NEA will work to provide supports to our members during this time.

If you have general questions or concerns about Continuous Learning in Kansas, KNEA has a committed line of communication using this form: <https://openideagroup.typeform.com/to/mZSGPh>.

MONITORING THE COVID-19 RESPONSE IMPACTS

As Kansas school district leaders respond to the ongoing COVID-19 pandemic, we would like to monitor questions and concerns members have. The input you provide here will help us respond to common questions, but **is not** intended as a method for providing direct or immediate responses to inquiries. If you have an immediate need, please call your local UniServ office for help. You can find your UniServ contact information here: <https://www.kneaweb.org/about-contact/>
